Subject: Rosemont

Patrick Cunningham called: "Corps is working with Hud Bay and they are progressing". Corps / HudBay met last week on new mitigation info with the Corps "national mitigation experts."

Issue is the 401 cert, signed by Jared April 2015...is this still our position? He cited Henry Darwin and HudBay's responses to the EPA letter. Is this still the EPA position? I said yes, that letter still represents our views, as we have received no new information that I'm aware of.
